Petition to

KEEP THE BRIDGE

Don't demolish the Pickering Bridge at Moy Pocket, near Kenilworth KEEP IT FOR THE PEOPLE

We the undersigned, respectfully ask Sunshine Coast Council and Gympie Regional Council to retain the old timber E. Pickering Bridge at Moy Pocket for pedestrian use once the new high level road bridge comes into operation.

The site provides vital people-friendly access to the Mary River and is already wellutilised by picnickers, kayakers, tourists, fishermen and families.

The new bridge will carry higher-speed traffic, including quarry trucks, but will not include a walking lane.

Keeping the old bridge will allow for safer enjoyment of the river.

The Mary Valley Renewal Plan placed river access as a high priority.

Keeping the old bridge gives a relaxed new dimension to river recreation.

Our timber bridges are rapidly disappearing along the river.

Keeping the old bridge would recognise an important part of our heritage.
